"PAN SAVER" UNIVERSAL OIL DRAIN PLUG

Solves the problem of oil pans with threads stripped beyond repair.

- This unique plug combines a tight rubber seal with a sturdy metal "Toggle-Lock".
- Great applications: works on most vehicles with 1/2"- 3/4" (12mm - 18mm) diameter holes.
- CAUTION: Not for use on Honda or VW Products.

Make sure threaded bolt will not contact any internal parts before installation. Bolt enters oil pan 1-7/8". Not a permanent solution.
